

FISITA World Mobility Summit 2026

Dear Fellow,

On behalf of ChangHwan Kim, President of FISITA we are pleased to extend a personal invitation to you, as a distinguished member of the Suomen Autoteknillinen Liitto r.y. (SATL) Fellow community, to attend the FISITA World Mobility Summit, taking place at the Rolling Hills Hotel, Gyeonggi-do, Seoul, Republic of Korea, on 4-5 November 2026.

FISITA recognises the significant value that our Society member Fellows can bring to the Summit's unique programme of technology leadership, strategic dialogue and international collaboration. As a result, a limited number of places have been made available to Fellows from leading FISITA member societies around the world.

The FISITA World Mobility Summit is the annual gathering of technology leaders from the world's most significant automotive and mobility organisations. It is independent, influential, strategic and exclusive by design and has become one of the most important forums in the international mobility leadership calendar, bringing together senior executives, engineers, researchers and decision-makers to exchange ideas, build relationships and help shape the future direction of the sector.

The 2026 Summit will be held under the theme **"Embracing the Complexities of Mobility"**, recognising that the industry's most pressing challenges and opportunities extend far beyond simple technology choices. Across two days of strategic discussion, you will have the opportunity to explore the interconnected issues shaping the future of mobility, including software-defined vehicles, electrification, battery technologies, automated driving, artificial intelligence, regulation and evolving global market dynamics.

The programme brings together executives from major vehicle manufacturers, suppliers and technology companies, alongside the presidents and leaders of FISITA's national member societies, representing mobility engineers worldwide. This unique environment creates opportunities for open dialogue, informed debate and meaningful international collaboration.

The programme includes keynote contributions and executive discussions featuring technology and engineering leaders from organisations including Hyundai Motor Group, Toyota, Xiaomi, Bosch, Autoliv, Stellantis and Volvo, alongside expert perspectives from Roland Berger, Sino Auto Insights, Horizon Robotics and Hogan Lovells. You will also benefit from dedicated regional insights covering Asia, Europe and North America, as well as extensive networking opportunities throughout the event.

As a Summit participant, you will gain access to candid peer-to-peer discussions with senior industry leaders, valuable insight into emerging technology and regulatory trends and a deeper understanding of the strategic forces reshaping global mobility. Equally importantly, you will have the opportunity to contribute your own expertise and perspectives to conversations that help inform the future direction of our industry.

As a Fellow, you belong to a community that represents the highest levels of professional achievement and contribution to the engineering profession. We believe your experience, insight and leadership would make a valuable contribution to the discussions taking place at the Summit, while also providing an exceptional opportunity to engage with a global network of fellow technology and engineering leaders.

Places available through this initiative are limited and have been allocated across a select group of FISITA member societies. We therefore encourage you to consider this invitation and book your place at your earliest convenience. FISITA Society members enjoy access to a special discounted ticket rate, offered exclusively as part of their membership benefits. You can find out more about the booking process and the event here: [Summary - FISITA World Mobility Summit 2026](#) or contact Kay Saunders, FISITA Director of Membership and Events at k.saunders@fisita.com

We sincerely hope you will be able to join us in Seoul for what promises to be a highly valuable and influential gathering of global mobility leaders and we look forward to welcoming you personally to the FISITA World Mobility Summit 2026.

Yours sincerely,

ChangHwan Kim
President, FISITA
Executive Vice President
Hyundai Motor Company
